A Behavior Model For Persuasive

Persuasive technology is broadly defined as technology that is designed to change attitudes or behaviors of the users through persuasion and social influence, but not through coercion. Such technologies are regularly used in sales, diplomacy, politics, religion, military training, public health, and management, and may potentially be used in any area of human-human or human-computer interaction.

Persuasive technology - Wikipedia

Definition. The term employee behavior, refers to the way in which employees respond to specific circumstances or situations in the workplace.While many elements determine an individual's behavior ...
