Rorschach. Although Warhol's earliest work declared a dramatic break with Abstract Expressionism, he remained interested in abstraction throughout his career, and, in 1984, focused his ideas into his large series of Rorschach paintings. They were inspired by the so-called Rorschach test, devised by the Swiss psychologist Hermann Rorschach.

Created during the last decade of his life, Warhol's Rorschach paintings are some of the most compelling and intellectual of his career. These Rorschach paintings, by nature of their monolithic proportions, dominate the room. In the black-on-white canvas, Warhol's totemic forms unfurl from the surface with vigor and abundance through the deep, inky black paint that has been spread and compressed, dripped and dragged over a vast field of creamy white.
