Iguanas are herbivores, animals that eat only plant matter — the vegans of the animal world. There aren't many

## Access Free Iguanas For Dummies

herbivorous lizards in the world, but they all share a couple of traits: They all need lots of heat, and they all get big.

Herbivorous reptiles also require good, nutritious plant matter, not just a head of lettuce now and then. In fact, most conscientious iguana owners come to realize that their iguanas eat better than their human family members.
