Kawasaki Fd590v Engine for sale | In Stock | eBay

They are good engines. I have one on one of my mowers. Strong running. I only have 300 hrs on mine though. I would think you could get into the thousand(s) with them depending on maintenance performed(oil changes, fuel stabilizers, etc.) Generally when you get into the higher hours on an engine, liquid cooled ones hold up the best.

The Kawasaki 340 is a Japanese twin-cylinder, in-line, two-stroke engine that was designed for snowmobiles and produced by Kawasaki Heavy Industries until the early 1980s. The engine was available in air-cooled and liquid-cooled versions. The engine was widely adapted for other purposes, including ultralight aircraft.Kawasaki did not condone or support the use of the engine in aircraft and it ...

Kawasaki 340 - Wikipedia

Having worked on both engines, they are both good engines and will do the job very well. That being said I would select the Kawasaki over the Briggs. Reason being I think the Kaw. would be better is that I feel it is a more reliable engine in that size. I also like the idea of water cooled over air cooled for the type of jobs you will be doing.
