Monumentality In Later Prehistory Building

About this book. This volume provides the results of a 30-year excavation, reconstruction, and public interpretation

Online Library Monumentality In Later Prehistory Building And Rebuilding Castell Henllys

campaign at the late prehistoric inland promontory settlement of Castell Henllys, here focusing on the defensive sequence and the role of monumentality in later prehistory. The site has international significance because of the extensive excavations of the Iron Age palisaded settlement and later earthen ramparts, complex gateway, and chevaux-de-frise of upright stones.

Monumentality in Later Prehistory - Building and ...

The publication will provide a case study for the construction and use of the earthworks of a major European late prehistoric settlement type - the Iron Age hillfort; the monumental construction is compared with other communal investments such as the Mississippian mounds.
