Definition: The Schirelmann density of a set of natural numbers A is defined as =  $\liminf_{n \rightarrow \infty} \frac{A(n)}{n}$ , where A(n) denotes the number of elements of A not exceeding n and inf is infimum... The Schirelmann density is well-defined even if the limit of A(n)/n as n  $\rightarrow \infty$  fails to exist (see upper and lower asymptotic density).. Properties. By definition, 0  $\leq$  A(n)  $\leq$  n and n  $\in$  A(n) for all n, and ...
